Complete evolution lines present for many families, including Larvitar/Pupitar, Weedle/Kakuna/Beedrill, Caterpie/Metapod/Butterfree, and Grookey/Thwackey/Rillaboom.

Notes on This Catalog

Duplicate cards were stored in the reverse pockets of each binder page, so every visible card face across the 123 photographs is counted as a separate card. Quantities remain best-effort counts taken from photographs and may vary by one or two. Set attributions are given where the collector number was legible; entries showing two sets separated by a slash indicate duplicates of the same Pokémon printed across different sets. Cards were not removed from the binder, so condition and centering were not individually assessed.
